# **INTRODUCTORY SECTION**

December 18, 2020

To the Board of Directors and Citizens of the McMinnville School District No. 40 McMinnville, Oregon

Oregon Municipal Audit Law requires that an independent audit be made of all District funds within six months following the close of the fiscal year. Pursuant to this requirement, the Comprehensive Annual Financial Report of McMinnville School District #40 (the District), for the fiscal year ended June 30, 2020, is hereby submitted.

Phone: 503.565.4000

Fax: 503.565.4030

Management assumes full responsibility for the completeness and reliability of the information contained in this report. To provide a reasonable basis for making these representations, the District's management has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse, and to compile sufficient and reliable information for the preparation of the District's financial statements in conformity with generally accepted accounting principles in the United States of America (GAAP). Because the cost of internal controls should not exceed the anticipated benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute, assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

Wilcox Arredondo & Co., Certified Public Accountants, have issued an unmodified ("clean") opinion on the District's financial statements for the year ending June 30, 2020. The independent auditor's report is located at the front of the financial section of this report. The independent audit of the District's financial statements was part of a broader, federally mandated "Single Audit," designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are included in the Grant Compliance Section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the financial statements in the form of a Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors, beginning on page 6.

#### **DISTRICT PROFILE**

McMinnville School District was formed around 1876, the year that the District levied a tax to build a public school house. Today, the District is responsible for educating approximately 6,700 children in six elementary schools, two middle schools, and one high school.

The District is responsible for providing an education to children living within its boundaries. The District is responsible for building, operating, and maintaining school facilities; developing and maintaining approved education programs and courses of study, including academic and vocational programs, English as a second language programs, and programs for children with special needs; and, providing transportation and nutrition services to students in accordance with district, state, and federal requirements.

McMinnville School District #40 is Yamhill County's largest school district. It serves residents in the City of McMinnville, the City of Lafayette, and surrounding unincorporated areas of Yamhill County. The district boundary encompasses over 140 square miles of land.

The District is a financially independent, special-purpose municipal corporation exercising financial accountability for all K-12 public education within its boundaries. The District is governed by a seven-member Board of Directors elected to four-year terms by a majority of District voters. Terms are staggered, with elections held in odd-numbered years. Duties of the School Board include setting policy, adopting budgets, appointing the Superintendent, and hiring, terminating, and approving resignations of all certified and administrative staff members. The Board constitutes one-half of the Budget Committee and appoints the seven citizen members.

#### **ENROLLMENT**

Student enrollment in the fall of 2019 was 6,708. The District's enrollment over the past five years has grown by 1.3 percent. Over the past ten years, enrollment has increased by 2.2 percent. Enrollment is projected to decrease slightly over the next few years due to lower birth rates resulting in lower kindergarten cohorts.

| Grade Level                | 2009  | 2014  | 2019  |
|----------------------------|-------|-------|-------|
| Elementary (Grades K-5)    | 3,031 | 3,023 | 2,885 |
| Middle School (Grades 6-8) | 1,502 | 1,542 | 1,687 |
| High School (Grades 9-12)  | 2,034 | 2,055 | 2,136 |
| Total Enrollment           | 6,567 | 6,620 | 6,708 |

#### **ECONOMIC CONDITION**

McMinnville School District #40 is located in northwestern Oregon in the northern end of the Willamette Valley, approximately 40 miles southwest of Portland and approximately 25 miles northwest of Salem. The two cities within the District are McMinnville, population 34,615 and Lafayette, population 4,155. McMinnville is home to the county seat and Linfield College, a private university. Four of the top five employers provide services related to education, government, and healthcare, providing a stable base for the District's economy. There are nearly 90 manufacturers, producing a variety of goods. Major industries within the area include steel rebar, medical and social services, retail, plastics and rubber products fabrication, fabricated metal products, leisure and hospitality, health food products, and agriculture.

As of June 2020, the Yamhill County unemployment rate was 10.0%, as compared to 11.6% for the state of Oregon and 11.1% at the national level. Unemployment increased from 3.5% the prior year due to the economic impacts of the COVID-19 Pandemic. The private-sector industries that lost the most jobs were leisure, hospitality and manufacturing.

The real market value of property located in the boundaries of the District increased by 8.3% from 2018-19 to 2019-20, while the assessed property values increased by 5.2%. Assessed value as a percentage of real market value was 59% compared to 61% in the prior year. Per Oregon law, enacted in 1997, property tax is based on the lower of real market value or maximum assessed value, which increases by 3% each year. For 2019-20, the total real market value of property within the District boundaries is \$6.24 billion and the assessed value is \$3.7 billion.

#### STATE SCHOOL FUNDING

The Legislature appropriates money to schools from two main sources: income taxes through the State General Fund and lottery receipts. This money makes up the State School Fund (SSF). The Legislature sets the amount of state dollars schools are to receive for a two-year funding cycle. Federal funds are also available through grants distributed through the Oregon Department of Education or directly from the Federal Department of Education. These dollars are tied to specific programs and are restricted in use. Local revenues consist primarily of property taxes, the County School Fund, the Common School Fund, and other minor resources.

The Oregon Department of Education (ODE) is responsible for distributing the funds to districts using a statutory distribution formula. To achieve equal per-student funding, the formula is adjusted for local revenues. The formula uses five different components to adjust for cost differences among districts: teacher experience, weighted student count, transportation grant, facility grant, and a high cost disability grant. The average daily membership of students enrolled is weighted for students enrolled in special programs for special education, English as a second language, pregnant and parenting students, and additional weighting is added for students in poverty and foster care. The state's school funding formula determines 95% of the District's General Fund revenues.

The State's budget appropriation to K-12 education was increased from \$8.2 billion to \$9 billion for 2019-20 biennium, a 9.8% increase. In addition, the state legislature passed the Student Success Act (SSA) in 2019 which when fully implemented will invest \$1 billion each year in early learning and K-12 education. A new business tax was passed to provide this additional funding for new educational investment activities which will first become effective during the 2020-21 fiscal year.

Although the economic downturn in 2020 has reduced the available funds for the new School Success Act, the pandemic has not led to a decrease in the State School Fund for the 2020-21 fiscal year. The District also expects to receive \$1.3 million in Federal Cares Act funds to offset the cost of implementing a comprehensive distance learning program.

#### **LONG-TERM FINANCIAL PLANNING**

Through long range fiscal planning and adjustments to expenditures, the school district has been able to limit reductions to programs and maintain a stable financial base. The District's level of funding is determined by student enrollment and the funding levels set by legislative action. As part of the budget process, the Board also looks at whether the educational program put in place for the coming year can be sustained for at least two years. The budget process also includes reviewing a five year projection. During economic downturns, the legislature can decrease funding below original state estimates used by school districts for budgeting. It has been a goal of the district to set aside reserves for unanticipated decreases in state revenue estimates.

Since the District is dependent on the State of Oregon for a substantial portion of its operating funds, and state appropriations for K-12 education have often declined from the original appropriation, adherence to this policy is critical for maintaining long-term financial stability and keeping educational programs in place during the school year, with minimal disruptions.

The board policy sets the minimum ending fund balance at 8% of adopted revenues and encourages a higher fund balance, when possible, to offset unforeseen state revenue shortfalls. The board adopted budget for 2020-21 assumes a general fund year end reserve of \$7 million or 9.5% of estimated revenues. The District increased reserves during the prior two years to help offset higher PERS retirement costs for the 2019-21 biennium.

District facilities consist of eleven school buildings and four support services buildings. The average age of these buildings is 50 years, ranging from 1 years old to 106 years old. The District has completed its fourth year of capital improvement projects funded by the 2016 capital bond program. District taxpayers approved the sale of \$89.4 million of bonds to finance prioritized capital projects in May 2016. Bond proceeds including bond premium and interest income total \$104 million. In addition, the District received \$7 million from a state matching grant and \$2 million from a state seismic upgrade grant. District capital reserve funds were also contributed to bring the total project budget to \$118 million.

By June 30, 2020, 97 percent of the capital program resources have been spent. Renovation and repair work was completed at each of the District's building, with the major project sited at the high school to include the addition of a career technical center and the demolition/rebuild of the central portion of the high school to add and update classrooms and athletic facilities.

The District completed a detailed professional assessment of each facility and reconvened the Long Range Facilities Task Force in 2019. An updated long-range facilities plan is being developed based on this assessment.

#### FINANCIAL INFORMATION

#### **Budgetary Controls**

The District is required by the State of Oregon to adopt an annual budget for all funds subject to the requirements of Local Budget Law, as outlined in the Oregon Revised Statutes 294.305 through 294.520, inclusive. A Board-appointed Budget Committee of 14 citizens (including Board members) annually develops and approves the District budget. The budget for each individual fund is a plan for the financial operation to be conducted during the coming fiscal year and is adopted annually, prior to July 1, by the School Board. After adoption, the budget may be revised through procedures specified in State statute and District Policy. The budget is prepared by fund, major function (e.g., instruction, supporting services), and type of expenditure (e.g., salaries, employee benefits). Management may transfer resources within major function category.

A summary of the approved budget, together with a notice of public hearing, is published in a newspaper having general circulation in the district. A public hearing is held to receive comments from the public concerning the approved budget. The Board of Directors adopts the budget, makes appropriations, and levies taxes after the public hearing and before the year for which the budget has been prepared. After adoption, the budget may be revised through procedures specified in State law and Board policy.

#### **Accounting Policies**

Policies adopted by the Board include guidance on resource planning and allocation, accounting and financial practices, revenue, capital improvements, and debt and investment management. The financial policies also provide financial planning guidance regarding reserves. The accrual and modified accrual basis of accounting used by the District are in accordance with U.S. generally accepted accounting principles.

#### **MAJOR INITIATIVES**

The District has implemented the following major, grant-funded initiatives:

- Student Success Act (SSA) Oregon legislature passed HB 3427 during the 2019 legislative session which will increase revenue for K-12 education by \$1 billion each year beginning in 2020-21. The SSA provides funding in three accounts, the Student Investment Account (SIA), Statewide Education Initiatives Account, and the Early Learning Account. Beginning in 2019 the District held community engagement activities to determine the best use of the SIA funding. These funds will be used towards investment initiatives to address the four key areas of increased instructional time, student health and safety, class size reduction and well-rounded learning opportunities.
- High School Success Act (Measure 98) The District has received funding from the High School Success fund for three years. These funds are used to establish and expand programs for dropout prevention, career and technical education, and college level opportunities. Passage of the Student Success Act has provided full funding for this program.

21st Century Community Learning Centers – In September 2018, the District received a 5-year grant of \$2.5 million to provide afterschool and summer school programing for students in K-12th grade. The focus of the project is to provide academic interventions and enrichment, with a particular emphasis on STEAM (Science, Technology, Engineering, Art, and Mathematics) makerspaces. Makerspaces are project-based learning activities in which students develop and make things, either collaboratively or individually.

#### **AWARDS AND ACKNOWLEDGEMENTS**

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to McMinnville School District for its *Comprehensive Annual Financial Report* (CAFR) for the year ended June 30, 2019. This was the eleventh year the District has received the prestigious award. In order to be awarded a Certificate of Achievement, a government agency must publish an easily readable and efficiently organized *CAFR* and must satisfy both generally accepted accounting principles and applicable legal requirements.

In addition, the Association of School Business Officials International (ASBO) awarded its Certificate of Excellence in Financial Reporting to McMinnville School District for its CAFR for the year ended June 30, 2019. This was the eleventh year that the District received the award. Receiving the award is recognition that the District has met the highest standards of excellence in school financial reporting adopted by ASBO.

These certificates are valid for a period of one year only. We believe our current *CAFR* continues to meet these standards and will be submitted for review for another certificate. These awards are representative of the District's continuing efforts to achieve excellence in the performance of public service and financial reporting.

The preparation of this report would not have been possible without the efficient and dedicated service of the entire fiscal services department staff. We appreciate and thank all staff who assisted and contributed to the preparation of this report. Credit must also be given to the School Board and Budget Committee for their continued interest and support in maintaining the highest standards of professionalism in the management of McMinnville School District's finances.

Respectfully submitted,

Maryalice Russell, Ed.D.

# **FINANCIAL SECTION**

## **INDEPENDENT AUDITORS' REPORT**

To the School Board McMinnville School District No. 40 Yamhill County, Oregon

#### INDEPENDENT AUDITORS' REPORT

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of McMinnville School District No. 40, McMinnville, Oregon (District), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the District, as of June 30, 2020, and, the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Schedule of Changes in Total Other Postemployment Benefits and Related Ratios and Oregon Public Employee Retirement System information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Government Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance

Additionally, accounting principles generally accepted in the United States of America require that the General Fund and Grant Fund budgetary comparison be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Government Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the General Fund and Grant Fund budgetary comparison are fairly stated in all material respects in relation to the basic financial statements taken as a whole

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Introductory section, the other supplementary information, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is also not a required part of the basic financial statements.

The other supplementary information, as listed in the table of contents, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information, as

defined in the table of contents, and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on then.

#### Other Reporting Required by Governmental Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 18, 2020, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

#### Reports on Other Legal and Regulatory Requirements

In accordance with Minimum Standards for Audits of Oregon Municipal Corporations, we have issued our report dated December 18, 2020 on our consideration of the District's internal control over financial reporting and compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance.

# MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of McMinnville School District #40 (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2020. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages i-vi of this report.

#### **FINANCIAL HIGHLIGHTS**

- The liabilities and deferred inflows of resources of the District exceeded the assets and deferred outflows of resources of the District at the close of the most recent fiscal year by \$5,699,328 (a deficit net position). The unrestricted net position, which represents the amounts available to meet the ongoing obligations to citizens and creditors, was a deficit of \$68,034,734. The McMinnville School District is committed to provide postemployment benefits to its employees. As a result, the District has recognized substantial liabilities in the financial statements for these benefits. As of June 30, 2020, the District had liabilities of \$73.5 million for postemployment benefits, which has caused the deficit balance in the unrestricted net position. Over the last several years, this liability has been the primary reason for the negative net position reported in this statement.
- The District's total net position decreased by \$9.4 million primarily because of postemployment benefit plan expenses incurred during the current period.
- At the close of the current fiscal year, the District's governmental funds reported combined fund balances of \$16,677,181, a decrease of \$9,926,064 in comparison to the prior fiscal year. Of this amount \$7,837,357 is available for spending at the government's discretion (unassigned fund balance).
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$7,837,357, or approximately 11% of total general fund expenditures.
- Total cost of all District programs was \$99.9 million, an increase of \$6.6 million from the prior year.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains supplementary information in addition to the basic financial statements themselves.

#### **Government-wide Financial Statements**

The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. These statements include:

**Statement of Net Position.** The statement of net position presents information on all of the assets, deferred outflows of resources, liabilities and deferred inflows of resources of the District with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

**Statement of Activities.** The statement of activities presents information showing how the net position of the District changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

In the government-wide financial statements, the District's activities are shown in one category as *governmental activities*. All of the District's basic functions are shown here including instruction, support services, enterprise and community services, facilities acquisition and construction and debt service. These activities are primarily financed through property taxes, Oregon's State School Fund and other intergovernmental revenues. The government-wide financial statements are found on pages 16 and 17 of this report.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)**

#### **Fund Financial Statements**

The *fund financial statements* provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The McMinnville School District #40, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

**Governmental funds.** The governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund Balance Sheet and the Statement of Revenues, Expenditures and Changes in Fund Balances are reconciled to the government-wide statements of Net Position and Activities.

The District maintains eight individual governmental funds in accordance with Oregon local government budget law. Information is presented separately in the governmental funds Balance Sheet and the governmental funds Statement of Revenues, Expenditures and Changes in Fund Balances for the General Fund, Grants Fund, Debt Service Fund and Capital Projects Fund, all of which are considered to be major funds. Data from the other four governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided as Supplemental Information.

The basic governmental fund financial statements can be found on pages 18 through 21 of this report.

**Fiduciary Funds.** Fiduciary funds are used to account for resources held for the benefit of parties outside the District, such as the Trust Funds. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the District's own programs. The accounting used for fiduciary funds is the same as that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 22 - 23 of this report.

#### **Notes to the Basic Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 24 through 51 of this report.

#### Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain *Required Supplementary Information* related to Statement of Revenues, Expenditures and Changes in Fund Balance-Budget and Actual for the General Fund and Grants Fund. Required supplementary information can be found on pages 54 through 60 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds are presented following the required supplementary information. Combining and individual fund statements and schedules can be found on pages 72 through 79 of this report.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

#### Statement of Net Position.

The Statement of Net Position presents information on all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

#### Statement of Net Position

|   | Governmental Activities |  |               |  |                        |  |

| Deferred Inflows of Resources   |                         | 6,680,387                                |               | 6,727,321                                |                        | (46,934)                                 |
| Net Position Net investment in capital assets Restricted Unrestricted |                         | 56,345,606<br>5,989,800<br>(68,034,734)  |               | 60,569,246<br>2,164,220<br>(59,071,573)  |                        | (4,223,640)<br>3,825,580<br>(8,963,161)  |
| Total Net Position  | \$                      | (5,699,328)                              | \$            | 3,661,893                                | \$                     | (9,361,221)                              |

**Net position.** The largest portion of the District's net position reflects an investment of \$56.3 million in capital assets (land, buildings and equipment and construction in progress), net of any related outstanding debt used to acquire those assets. The District uses these capital assets to provide services to students and other District residents; consequently these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources (generally, property taxes), since the capital assets themselves cannot be used to liquidate these liabilities.

The second component of the District's net position is restricted which totals \$6 million and represents resources that are subject to external restrictions on how they may be used.

The remaining balance is an unrestricted net position deficit totaling \$68 million. This deficit is caused primarily by the postemployment benefit plan liabilities.

**Cash and other assets.** Cash and other assets totaled \$27 million at year end. Cash and investments (\$23.3 million) made up 86% of this total. Total cash and other assets decreased by \$11.5 million from the prior year. This was primarily due to the expenditure of construction bond proceeds from the 2016 capital bond program.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS (Continued)**

**Capital assets.** At year end, the District's investment in capital assets amounted to \$182.8 million (net of accumulated depreciation). This includes land, buildings and improvements, and equipment as shown in the following table:

### Capital Assets (Net of Depreciation)

#### Governmental Activities

|                              | Activities |              |    |              |    |                        |
|------------------------------|------------|--------------|----|--------------|----|------------------------|
|                              | J          | une 30, 2020 | J  | une 30, 2019 |    | Increase<br>(Decrease) |
| Land                         | \$         | 4,879,642    | \$ | 4,879,642    | \$ | -                      |
| Construction in Progress     |            | 39,314       |    | 52,681,278   |    | (52,641,964)           |
| Buildings and Improvements   |            | 175,143,197  |    | 118,589,249  |    | 56,553,948             |
| Equipment                    |            | 2,734,823    |    | 3,120,381    | _  | (385,558)              |
| Total capital assets, net of |            |              |    |              |    |                        |
| accumulated depreciation     | \$         | 182,796,976  | \$ | 179,270,550  | \$ | 3,526,426              |
|                              |            |              |    |              |    |                        |

During fiscal year, net capital assets increased by \$3.5 million. Major capital assets events during the current fiscal year included the following:

- Completion of the high school remodel and addition project at a cost of \$7.8 million,
- Athletic field turf replacement and other improvements of \$1.8 million.
- Street improvements of \$311,000 for property held by the District.

Depreciation expense was \$5.9 million for the year. Additional information on the District's capital assets can be found in Note 4 of this report.

**Deferred inflows and outflows of resources.** Deferred outflows of resources decreased by \$2.2 million and deferred inflows of resources decreased by \$46,934 due to changes in assumptions and investment earning differences related to the valuation of the net pension liability and OPEB liabilities.

**Liabilities.** Accrued liabilities, representing 4% of the District's total liabilities, consists of payables on accounts, salaries and benefits, interest charges, and unearned revenues.

Outstanding long-term obligations represent 96% of the District's total liabilities. At the end of the current fiscal year, the District's long-term obligations totaled \$225.7 million. The following table shows the types of obligations for the current and prior year.

#### **Outstanding Long-term Obligations**

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS (Continued)**

The District's total long-term debt increased by \$899,867 during the current fiscal year. This reflects a decrease in bonds payable and unamortized bond premium of \$6.7 million due to principal payments and amortization expense. The decrease was offset by an increase in postemployment pension benefit liabilities.

The District maintains an underlying rating of "Aa3" from Moody's and "A+" from S&P for general obligation debt. State statutes limit the amount of general obligation debt the District may issue to 7.95 percent of total real market property values. The current debt limitation for the District is \$496 million, which significantly exceeds the District's outstanding general obligation debt of \$116 million. Additional information on the District's long-term debt can be found in Note 5 of this report.

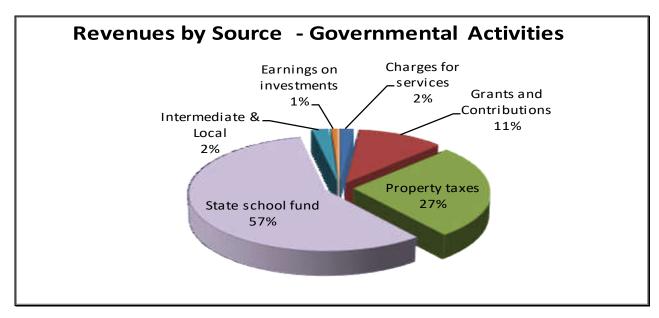

**Governmental Activities.** During the fiscal year, the District's net position decreased by \$9.4 million. The key elements of the change in the District's net position for the year ended June 30, 2020 are as follows:

### Changes in Net Position For the Year Ended

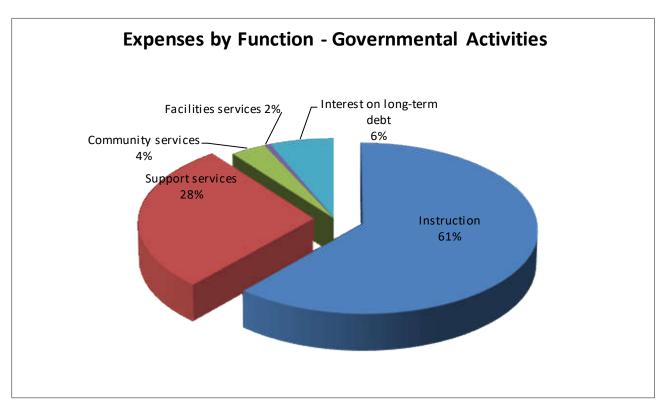

|                                      | Governmental Activities |               |    |               |    |             |

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS (Continued)**

**Revenues.** Total revenues increased slightly by \$627,792 (0.7%). Program revenues decreased by \$164,216. General revenues increased by \$792,008 (1%) as a result of increased state school funding and property taxes.

**Expenses.** Total expenses increased by \$6.6 million (7%). This increase is related in part to increases in expenditures for wages, benefits, depreciation and postemployment benefit plan expense.

#### FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds.** The focus of the District's governmental funds is to provide information on near-term inflows – cash flow and funding for current services – and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information is useful in assessing the District's near-term financing requirements. In particular, the unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use as it represents the portion of fund balance which has not yet been limited to use for a particular purpose by an external party or committed by the District itself.

At June 30, 2020, the District's governmental funds reported combined ending fund balances of \$16.7 million, a decrease of \$9.9 million. 47% of this amount (\$7.8 million) is *unassigned fund balance*, which is available for spending at the government's discretion. 36% of this amount is *restricted* for particular purposes (\$6 million) and 17% is *committed* by the District for specific purposes (\$2.9 million). The large decrease in fund balance is due to capital outlay for building construction and improvements funded by the 2016 capital bond program and district reserve funds. Information regarding the major governmental funds is contained in the following sections.

General Fund. The General Fund is the primary operating fund of the District. As of June 30, 2020, the total general fund balance was \$10.2 million, a \$1 million decrease from the prior year. The *unassigned* fund balance is \$7.8 million which represents 11% of total General Fund revenues. *Committed* fund balance of \$2.3 million represent budgetary reserve funds held for asset replacement and insurance reserves.

*Grants Fund.* The Grants Fund accounts for the revenues and expenditures of specific educational programs funded from federal, state and local sources. The *restricted* fund balance at year end is \$291,214. Grant revenue is normally recognized as grant expenditures are expended.

Debt Service Fund. The Debt Service Fund has a total restricted fund balance of \$653,292. All of which is reserved for the payment of debt service.

Capital Projects Fund. The Capital Projects Fund has a total restricted fund balance of \$3.2 million. These funds represent the remaining bond proceeds and investment earnings restricted for the 2016 capital bond program. The fund balance decreased by \$9.3 million representing capital outlay for construction and building improvements.

#### **General Fund Budgetary Highlights**

Original budget compared to final budget. During the year there were no changes to the original budget appropriations. The General Fund budgetary schedule can be found on page 57 of this report.

Final budget compared to actual results. Actual revenues were \$610,886 lower than budgeted mostly in the area of state revenues. Expenditures were lower than appropriations by \$2.6 million. This includes a decrease in expenditures for instruction due to position vacancies held for student enrollment growth and costs savings due to school closures as a result of the pandemic. Operating expenses for substitute teachers and student transportation decreased while the District was offering a comprehensive distance learning the last three months of the school year. Also, an operating contingency of \$500,000 was not utilized.

#### **ECONOMIC FACTORS AND NEXT YEAR'S BUDGET**

The most significant economic factor for the District's General Fund is the State School Fund. The total state school fund formula includes both state appropriations for K-12 education and local property taxes. The amount distributed to school districts is based on the District's average daily membership of students with additional weights for students with special needs, English language learners and poverty. When enrollment decreases in comparison to the prior fiscal year, the District's allocation of the state school fund formula is based on the higher prior year enrollment. Any decrease in enrollment for the 2020-21 school year due to the pandemic, is expected to recover in the 2021-22 school year with little loss to the District's allocation of state school funding.

The 2020-21 budget was adopted by the Board on June 22, 2020. The adopted budget for the General Fund for the year ending June 30, 2020 includes appropriations of \$75.5 million, 1% higher than the 2019-20 adopted budget. Board policy mandates that the District budget with the goal to maintain a minimum target of eight percent ending fund balance. The budget for 2020-21 includes planned reserves of \$7.0 million or 9.5% of revenues.

#### REQUESTS FOR INFORMATION

This financial report is designed to present the user (citizens, taxpayers, investors, and creditors) with a general overview of the District's finances and to demonstrate the District's accountability. Questions concerning any of the information provided in this report or requests for additional information should be addressed to Susan Escure, Director of Finance, McMinnville School District #40, 800 N.E. Lafayette St. McMinnville, OR 97128.

# McMINNVILLE SCHOOL DISTRICT NO. 40 RECONCILIATION OF GOVERNMENTAL FUNDS BALANCE SHEET TO STATEMENT OF NET POSITION June 30, 2020

| Total fund balances - governmental funds   | \$              | 16,677,181    |
|--|-----------------|---------------|
| Amounts reported for governmental activities in the statement of net position are different because:   |                 |               |
| Capital assets are not financial resources and therefore are not reported in the governmental funds:   |                 |               |
| Cost \$ 237,505,0<br>Accumulated depreciation (54,708,0  |                 | 182,796,976   |
| A portion of the District's property taxes are collected after year-end but are not available soon enough to pay for the current years' operations, and therefore are not reported as revenue in the governmental funds.   |                 | 956,251       |
| Long-term pension assets/liabilities not payable in the current year are not reported as governmental fund liabilities. Actuarial changes create deferred outflows and inflows of resources. These consist of:   |                 |               |
| PERS net pension liability (67,078,7   | ,               |               |
| Deferred outflows of pension related items 20,982,0 Deferred inflows of pension related items (5,025,3   |                 | (51,122,068)  |
| Long-term OPEB assets/liabilities not payable in the current year are not reported as governmental fund liabilities. Actuarial changes create deferred outflows and inflows of resources. These consist of:  OPEB net asset - RHIA Total OPEB liability - PHIS Deferred outflows of OPEB related items Total OPEB related items | 04<br>25)<br>36 | (6,681,033)   |
| Long-term liabilities not payable in the current year are not reported as governmental fund liabilities. Interest on long-term debt is not accrued in the governmental funds, but rather is recognized as an expenditure when due. These liabilities consist of:   |                 | (1117)        |
| Accrued interest payable (205,2  |                 |               |
| Bonds payable (including premium) (152,173,3 Deferred charges on refunding 4,052,0   |                 | (148,326,635) |

McMINNVILLE SCHOOL DISTRICT NO. 40
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
YEAR ENDED JUNE 30, 2020

| Net Change in Fund Balances - total governmental funds   |       |  | \$<br>(9,926,064) |
|--|-------|--|-------------------|
| Amounts reported for governmental activities in the Statement of Activities are different because:   |       |  |                   |
| Governmental funds report capital outlay as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlay in the current period.  Expenditures for capital assets  Donated capital assets  Loss on disposal of assets  Less current year depreciation | \$    | 9,921,106<br>160,000<br>(629,156)<br>(5,925,524) | 3,526,426         |
| The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. This is the net effect of these differences in the treatment of long-term debt.  |       |  |                   |
| Principal payments   | _     | 5,495,721  | 5,495,721         |
| Governmental funds report the effect of issuance costs, premiums, and discounts when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences:  Amortization of deferred charge on refunding bonds  Amortization of premium   |       | (528,524)<br>1,184,259                           | 655,735           |
| Pension expense reported in the statement of activities is based on actuarially determined net pension liabilities and related deferred outflows and deferred inflows of resources. Pension contributions are reported in the governmental funds as a use of current financial resources. Actuarially determined amounts exceeded contributions by this amount.  |       |  | (9,015,298)       |
| OPEB expense reported in the statement of activities is based on actuarially determined total OPEB liabilities and related deferred outflows and deferred inflows of resources.  OPEB contributions are reported in the governmental funds as a use of current financial resources. Actuarially determined amounts were less than actual contributions by this amounts were less than actual contributions.                  | ount. |  | 54,501            |
| In the statement of activities interest is accrued on long-term debt, whereas in the governmental funds it is recorded as interest expense when due.   |       |  | 7,369             |
| Property taxes that do not meet the measurable and available criteria are not recognized as revenues in the current year in the governmental funds. In the statement of activities property taxes are recognized as revenue when levied.   |       |  | (159,611)         |
| Change in Net Position   |       |  | \$<br>(9,361,221) |

# 1. <u>Summary of Significant Accounting Policies</u>

#### Reporting Entity

McMinnville School District No. 40 (the District) is a municipal corporation governed by a separately elected seven-member board authorized to transact all business on the District's behalf. The District is the special-purpose primary government exercising financial accountability for all public education within its boundaries. The Board approves administrative officials. The daily functioning of the District is under supervision of the Superintendent. As required by generally accepted accounting principles, all activities of the District have been included in the basic financial statements.

The District qualifies as a primary government since it has a separately elected governing body, is a legally separate entity, and is fiscally independent. There are various governmental agencies and special districts, which provide service within the District's boundaries, however, the District is not financially accountable for any of these entities, and therefore, none of them are considered component units or included in these basic financial statements.

#### **Basis of Presentation**

#### GOVERNMENT-WIDE FINANCIAL STATEMENTS

The Statement of Net Position and the Statement of Activities display information about the District. These statements include the governmental financial activities of the overall District, except fiduciary activities. Governmental activities are financed primarily through property taxes, intergovernmental revenues, and charges for services.

The Statement of Activities presents a comparison between direct expenses and program revenues for each of its functions/programs. Direct expenses are those that are specifically associated with a function and, therefore, are clearly identifiable to that function. Program revenues include: (1) charges to students or others for tuition, fees, rentals, material, supplies, or services provided, (2) operating grants and contributions and (3) capital grants and contributions. Revenues not classified as program revenues, including property taxes and state supports, are presented as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter is excluded from the governmental-wide financial statements.

Net position is reported restricted when constraints placed on the net position use are either externally restricted, imposed by creditors (such as grantors, contributors or laws) or through constitutional provisions or enabling resolutions.

#### **FUND FINANCIAL STATEMENTS**

The fund financial statements provide information about the District's funds including those of a fiduciary nature. Separate statements for each fund category – governmental and fiduciary – are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as other governmental funds.

#### 1. Summary of Significant Accounting Policies (Continued)

#### Basis of Presentation - FUND FINANCIAL STATEMENTS (Continued)

The District reports the following major governmental funds:

General Fund – This fund accounts for all revenues and expenditures except for those required to be accounted for in another fund. The principal revenue sources are property taxes and an apportionment from the State of Oregon.

The Asset Reserve Fund, Textbooks and Technology Replacement Reserve Fund and the Insurance Reserve Fund are classified for purposes of presentation in the Fund Financial Statements as General Funds. Transfers from the General Fund are the primary sources of inflows for these three budgetary funds. These funds are separate special revenue funds for purposes of budget appropriation.

Grants Fund - This fund accounts for the revenues and expenditures of specific educational programs funded from federal, state and local sources. Principal sources of revenue are federal grants paid to the District through state and county agencies and other grants paid to the District directly from state, local and private agencies.

Debt Service Fund - This fund is used for the accumulation of resources and payment of general obligation bond principal and interest. Primary resources in these funds are property taxes and earnings on investments.

Capital Projects Fund – This fund accounts for activities related to the acquisition, construction, and equipping of facilities. The principle revenue sources are proceeds from the sale of bonds, state capital grants, and interest earnings.

Additionally, the District reports the following fund types:

The private-purpose trust fund is used to account for scholarship resources held by the District in a fiduciary capacity for use by students. Disbursements from this fund are made in accordance with the trust and donor agreements.

# Measurement Focus and Basis of Accounting

Government-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the District receives value without giving equal value in exchange, include property taxes, grants, entitlements and donations. On the accrual basis of accounting, revenue from property taxes is recognized in the fiscal year for which all eligibility requirements have been satisfied. Under terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net position available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs and then general revenues.

# 1. <u>Summary of Significant Accounting Policies (Continued)</u>

Governmental fund financial statements are reported using the current financial resources measurement focus and modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if they are collected within sixty days after year-end. Property taxes and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt and claims and judgments, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in the governmental funds and proceeds from general long-term debt and acquisitions under capital leases are reported as other financing sources.

#### <u>Budget</u>

A budget is prepared and legally adopted for each governmental fund type and private purpose trust on the modified accrual basis of accounting. The budgetary basis of accounting is the same as accounting principles generally accepted in the United States of America basis for the governmental fund types and private purpose trust fund, except that capital outlay expenditures, including items below the District's capitalization level, are budgeted by function in the governmental fund types. The resolution authorizing appropriations for each fund sets the level by which expenditures cannot legally exceed appropriations.

Appropriations are established at the major function level (instruction, support services, enterprise and community services, facilities acquisition and construction, debt service, operating contingency and transfers) for each fund. The detail budget document, however, is required to contain more specific, detailed information for the aforementioned expenditure categories. Unexpected additional resources may be added to the budget through the use of supplemental budget and appropriation resolution.

Supplemental budgets less than 10% of fund's budget may be adopted by the Board at a regular meeting. A supplemental budget greater than 10% of a fund's original budget requires a hearing before the public, publication in newspapers and approval by the Board. Original and supplemental budgets may be modified by the use of appropriation transfers between the levels of control (major function levels) with Board approval. The District's appropriations lapse at year-end.

#### Cash and Investments

The District's cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition are considered to be cash and cash equivalents. Short-term investments are stated at cost, which approximates fair value.

The District's investments consist of U.S. Government Treasury securities, U.S. Government Agency securities and the State of Oregon Treasurer's Local Government Investment Pool (LGIP). The District's investments are reported a fair value based upon quoted market rates. Changes in fair value of investments are recorded as investment earnings. The LGIP is stated at costs which approximates fair value. Fair value of the LGIP is the same as the District's value in the pool shares.

The Oregon State Treasury administers the LGIP. It is an open-ended no-load diversified portfolio offered to any agency, political subdivision or public corporation of the State that by law is made the custodian of, or has control of, any fund. The LGIP is commingled with State's short-term funds. In seeking to best serve local governments of Oregon, the Oregon legislature established the Oregon Short-Term Fund Board. The purpose of the Board is to advise the Oregon State Treasury in the management and investment options of the LGIP.

# 1. <u>Summary of Significant Accounting Policies (Continued)</u>

#### Property Taxes Receivable

Property taxes are levied and become a lien on all taxable property as of July 1. Collections dates are November 15, February 15, and May 15 following the lien date. Discounts are allowed if the amount due is received by November 15 or February 15. Taxes unpaid and outstanding on May 16 are considered delinquent.

Uncollected property taxes are recorded on the Statement of Net Position. Uncollected taxes are deemed to be substantially collectible or recoverable through liens; therefore, no allowance for uncollectible taxes has been established. All property taxes receivables are due from property owners within the District.

#### Accounts and Other Receivables

Accounts and other receivables are comprised primarily of State school support and claims for reimbursement of costs under various federal and state grants.

#### Grants

Unreimbursed grant expenditures due from grantor agencies are reflected in the basic financial statements as receivables and revenues. Grant revenues are recorded at the time eligible expenditures are incurred. Grant monies received prior to the occurrence of qualifying expenditures are recorded as unearned revenue.

#### Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Oregon Public Employees Retirement System (OPERS) and additions to/deductions from OPERS fiduciary net position have been determined on the same basis as they are reported by OPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### Capital Assets

Capital assets are recorded at original cost or estimated original cost. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are reported at their acquisition value on the date donated. The District defines capital assets as assets with an initial cost of more than \$5,000 and an estimated life in excess of one year. Interest incurred during construction is not capitalized. Maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Capital assets are depreciated using the straight-line method over the following useful lives.

Buildings and improvements 10 to 60 years Equipment 5 to 15 years

#### 1. Summary of Significant Accounting Policies (Continued)

#### Deferred outflows/inflows of resources

In addition to assets, the statement of net position and balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to a future period(s) so will not be recognized as an outflow of resources (expense/expenditure) until that time. The government has three items that arise only under a full accrual basis of accounting that qualify for reporting in this category. The statement of net position reports one type related to the net PERS pension liability, one type related to OPEB and one type related to bond refunding. These amounts are deferred and recognized as an outflow of resources in the period that the amounts become available.

In addition to liabilities, the statement of net position and balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has two items that arise for reporting in this category. The balance sheet reports unavailable revenues from one source: property taxes. The statement of net position reports two types related to the net PERS pension liability and one type related to OPEB. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

### Retirement Plans

Substantially all of the District's employees are participants in the Oregon Public Employees Retirement System (OPERS). For the purpose of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about fiduciary net position of PERS and additions to/deductions from PERS's fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The District offers its employees a tax deferred annuity plan established pursuant to Section 403(b) and 457(b) of the Internal Revenue Code.

# Post Employment Health Care Benefits

Eligible employees who elect early retirement are entitled to participate in the District's group medical insurance plan. Such costs are recorded as expenses in the General Fund and are funded as premiums become due.

#### **Compensated Absences**

It is the District's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the District does not have a policy to pay any amounts when employees separate from service with the District. All unused vacation pay is accrued, if material, when earned in the government-wide financial statements. The amount of vacation pay was deemed immaterial and therefore not recorded.

#### 1. Summary of Significant Accounting Policies (Continued)

#### Long-term Debt

In the government-wide financial statements long-term debt is reported as a liability in the Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest method. Bonds payable are reported net of applicable bond premium or discount. Bond issuance costs are expensed in the period incurred. Savings realized from advance refunding of debt are recorded as deferred outflows of resources and amortized over the remaining life of the related defeased debt.

In the fund financial statements bond premiums and discounts are recognized when incurred and are not deferred. The face amount of the debt issued, premiums received on debt issuances, and discounts are reported as other financing sources and uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### Interfund Transactions

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. This includes interfund transfers occurring within governmental activities and interfund receivables and payables.

#### Interfund Receivables/Payables

The District maintains a cash pool that is available for use by all funds. The cash pool account is maintained in the General Fund, while activity between funds utilizing this cash is referred to as Due to/from Other Funds in each fund at the end of the fiscal year in the fund basis financial statements. All interfund loan balances are considered current and are eliminated in the government-wide financial statements.

#### **Fund Balances**

In the governmental financial statements, fund balances are reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

Governmental fund balances are classified as nonspendable, restricted, committed, assigned or unassigned. Following are descriptions of fund classifications used by the district:

Nonspendable fund balance includes items not immediately converted to cash, such as prepaid items and inventory.

Restricted fund balance includes amounts that have constraints placed upon the use of the resources either by an external party or imposed by law through a constitutional provision or enabling legislation.

Committed fund balance includes amounts that can be used only for the specific purposes pursuant to constraints imposed by a formal resolution of the School Board. The School Board can modify or rescind the commitment at any time through taking a similar formal resolution.

Assigned fund balance includes amounts assigned for specific uses as authorized by the Superintendent and/or Director of Finance.

#### 1. Summary of Significant Accounting Policies (Continued)

#### Fund Balances (Continued)

Unassigned fund balance is the residual classification for balances not assigned to another category. The general fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds it is not appropriate to report a positive unassigned fund balance amount. However, in governmental funds other than the general fund, if expenditures incurred for specific purposes exceed the amounts that are restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance in that fund.

There are no nonspendable or assigned fund balances as of June 30, 2020.

The District considers the spending of restricted fund balances on purposes for which such funds can be used to occur first when funds are spent for restricted and unrestricted purposes. When unrestricted classifications of fund balance are spent, the board will consider the committed amounts will be reduced first, followed by assigned amounts and then unassigned amounts.

The Board has approved a policy that directs the Superintendent to manage the currently adopted budget in such a way to ensure an ending fund balance of at least five (5%) percent of total actual general fund revenues. This policy applies to the unassigned general fund balance. The Board is the highest level decision making authority and may take formal action by vote or resolution to establish, modify, or rescind a fund balance commitment.

### **Net Position**

In the government-wide financial statements, net position is classified in the following categories:

Net Investment in Capital Assets – This amount consist of capital assets net of accumulated depreciation and reduced by outstanding debt attributed to the acquisition, construction, or improvement of the assets. In addition, the District has unspent bond proceeds in the form of cash and investments to fund bond expenditures in subsequent years.

Restricted net position – This amount is restricted when constraints placed on the net position use are either externally restricted, imposed by creditors (such as grantors, contributors or laws) or through constitutional provisions or enabling resolutions.

*Unrestricted net position* – This amount is all net position that do not meet the definition of "net invested in capital assets" or "restricted net position".

# **Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

#### 2. Cash and Investments

The District maintains a cash pool that is available for use by all funds. Each fund type's portion of this pool is reported on the Combined Balance Sheet as Cash and Investments or Due to/from Other Funds. In addition, cash is separately held by certain funds of the District.

# 2. Cash and Investments (Continued)

Cash and investments on June 30, 2020 consist of the following:

| Petty Cash   | \$        | 1,254      |
|--|-----------|------------|
| Cash with fiscal agent   |           | 33,111     |
| Deposits with banks  |           | 895,721    |
| Investments  |           | 22,511,740 |
|  | <u>\$</u> | 23,441,826 |
| Cash and investments are shown on the basic financial statements as: |           |            |
| Statement of Net Position  |           |            |
| Cash and Investments   | \$        | 23,252,279 |
| Restricted Cash and Investments                                      |           | 33,111     |
| Statement of Net Position - Fiduciary Funds                          |           |            |
| Cash and Investments - Private Purpose Trust                         |           | 156,436    |
|  | \$        | 23.441.826 |

#### Deposits

# Custodial credit risk – Deposits

Custodial credit risk for deposits is the risk that in the event of bank failure, the District's deposits may not be returned to the District. Insurance and collateral requirements for the deposits are established by federal banking regulations and Oregon law. State statutes require that the District's deposits be covered by the Federal Deposit Insurance Corporation (FDIC) or by a multiple financial institution collateral pool under ORS 295.015 which is administered by the State of Oregon Office of the Treasury.

Deposits with financial institutions include primarily bank demand and money market deposits. The balances in these accounts according to the District's records total \$895,721 on June 30, 2020. The bank statement records reflect a balance of \$2,490,162 at year end. Of this amount, \$250,000 is covered by the FDIC's general deposit insurance rules. As required by Oregon Revised Statutes, deposits in excess of federal depository insurance were held at a qualified depository for public funds. All qualified depositories for public funds are included in the multiple financial institution collateral pool that is maintained by and in the name of the Office of State Treasurer. As a result, the District has no exposure to custodial credit risk for deposits with financial institutions.

# 2. Cash and Investments (Continued)

#### Investments

State of Oregon statutes restrict the types of investments in which the District may invest. Authorized investments include obligations of the United States Government and its agencies, certain bonded obligations of Oregon municipalities, bank repurchase agreements, bankers' acceptances, time certificates of deposit, certain commercial paper, and the State of Oregon Treasurer's Local Government Investment Pool.

| Investment Type                  | <br>Fair<br>Value              | Weighted Average Maturity in Years | % of Investment Portfolio |
|----------------------------------|--------------------------------|------------------------------------|---------------------------|
| Local Government Investment Pool | \$<br>22,511,740<br>22,511,740 | 0.08                               | 100%<br>100%              |

The District categorizes its fair value measurements within the fair value hierarchy established by generally acceptable accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of an asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant observable inputs. Investments in U.S. Treasury securities and U.S. Agency securities are valued using quoted market prices (Level 1 inputs).

The "weighted average maturity in years" calculation assumes that all investments are held until maturity.

Interest rate risk – investments. Interest rate risks is the risk that changes in interest rates will adversely affect the fair value of an investment. The District minimizes interest rate risk by structuring the investment portfolio so that securities mature to meet the cash requirements for ongoing operations and capital construction projects, thereby avoiding the need to sell securities in the open market, and investing primarily in the Local Government Investment Pool (LGIP). Funds may be invested in the LGIP to the extent permitted by ORS 294.810. Excess amounts are invested in adherence with the portfolio maturity constraints.

Under the District's policy, investments of over 18 months will be avoided, unless they can be matched with specific expected use of funds as provided by ORS 294.135. The investment of capital bond proceeds are timed to meet construction payments, for a term not to exceed three years.

Concentration of credit risk – investments. The Oregon State Treasurer's Local Government Investment Pool (LGIP) is subject to regulatory oversight by the Oregon Secretary of State and is not required to be categorized by risk. The LGIP is stated at cost, which approximates fair value. Fair value of the LGIP is the same as the District's value in the pool shares. The Oregon State Treasurer maintains the Oregon Short-Term Fund, of which the LGIP is a part. It is not registered with the U.S. Securities and Exchange Commission. The Fund currently has no credit rating as assigned by the credit rating agencies. On June 30, 2018 the fund's composite weighted rating was equivalent to S&P's AA ratings. The State's investment policies are governed by statute and the Oregon Investment Council (Council). The State Treasurer is the investment officer for the Council and is responsible for all funds in the State Treasury. Investments in the Fund are further governed by portfolio guidelines issued by the Oregon Short-Term Fund Board (OSTFB) and approved by the Oregon Investment Council (ORS 294.805 to 294.895).

# 2. <u>Cash and Investments (Continued)</u>

As a means of limiting its exposure to fair value losses arising from rising interest rates, the District's investment policy for capital bond proceeds (Policy DFAA) limits investments as follows:

| Investment Type          | Maximum % of Holdings           |
|--------------------------|---------------------------------|
| U.S. Treasury securities | 100%                            |
| U.S. Agency securities   | 33% per issuer                  |
| LGIP or Bank Deposits    | Minimum of 10% of bond proceeds |

As of June 30, 2020, and for the year then ended, the District was in compliance with the State of Oregon statutes regarding investments as discussed under Note 1 and the District's investment policies.

# 3. Receivables

Receivables are comprised of the following as of June 30, 2020:

| Property taxes receivable            |            |     |
|--------------------------------------|------------|-----|
| General fund                         | \$ 848,2   | 257 |
| Debt service fund                    | 523,5      | 50  |
| Total property taxes receivable      | 1,371,8    | 807 |
| Grants receivable                    |            |     |
| General fund                         | 336,7      | '13 |
| Grants fund                          | 1,013,5    | 21  |
| Other governmental funds             | 4,2        | 211 |
| Total grants receivable              | 1,354,4    | 45  |
| Other receivables                    |            |     |
| General fund                         | 63,4       | -03 |
| Grants fund                          | 27,6       | 603 |
| Other governmental funds             | 191,1      | 98  |
| Total interest and other receivables | 282,2      | 204 |
| Total receivables                    | \$ 3,008,4 | 56  |

# 4. Capital Assets

Capital assets activity for the year ended June 30, 2020 was as follows:

|   | Balance<br>June 30, 2019 | Increases     | Decreases       | Balance<br>June 30, 2020 |
|---|--------------------------|---------------|-----------------|--------------------------|
| Capital assets not being depreciated:       |                          |               |                 |                          |
| Construction in Progress                    | \$ 52,681,278            | \$ 39,314     | \$ (52,681,278) | \$ 39,314                |
| Land  | 4,879,642                |               |                 | 4,879,642                |
| Total Capital Assets not being depreciated  | 57,560,920               | 39,314        | (52,681,278)    | 4,918,956                |
| Capital assets being depreciated:           |                          |               |                 |                          |
| Buildings and improvements                  | 165,055,296              | 62,418,608    | (1,372,703)     | 226,101,201              |
| Equipment                                   | 6,196,092                | 304,462       | (15,701)        | 6,484,853                |
| Total capital assets being depreciated      | 171,251,388              | 62,723,070    | (1,388,404)     | 232,586,054              |
| Less accumulated depreciation for:          |                          |               |                 |                          |
| Buildings and improvements                  | (46,466,047)             | (5,235,504)   | 743,547         | (50,958,004)             |
| Equipment                                   | (3,075,711)              | (690,020)     | 15,701          | (3,750,030)              |
| Total accumulated depreciation              | (49,541,758)             | (5,925,524)   | 759,248         | (54,708,034)             |
| Total capital assets being depreciated, net | 121,709,630              | 56,797,546    | (629,156)       | 177,878,020              |
| Total capital assets, net                   | \$ 179,270,550           | \$ 56,836,860 | \$ (53,310,434) | \$ 182,796,976           |

Depreciation expense for the year was charged to the following programs:

| Program                    |                 |
|----------------------------|-----------------|
| Instructional programs     | \$<br>5,315,530 |
| Supporting services        | 502,591         |
| Community services         | <br>107,403     |
|                            |                 |
| Total depreciation expense | \$<br>5,925,524 |

<u>Construction Commitments</u> - The District has active construction projects as of June 30, 2020. As of the end of the fiscal year, the District is committed under various accepted bid agreements and contracts for approximately \$336,415 for goods, services and construction of facilities.

# 5. <u>Long-Term Debt</u>

#### Bonds Payable

General Obligation Bonds – General obligation bonds are direct obligations and pledge the full faith and credit of the District. The District issues general obligation bonds to provide funds for the acquisition and construction of school facilities.

On August 10, 2016, the District issued \$88,400,000 in General Obligation Bonds to finance capital construction and improvements. Interest rates range from 3.0% to 5.0%, payable semiannually in June and December. The bonds mature on June 15, 2038 with principal payments due annually on June 15<sup>th</sup>. The bonds were issued at a premium of \$13,381,978, which is being amortized over the life of the bonds.

On February 27, 2013, the District issued \$42,075,000 in General Obligation Bonds to refund bonds issued June 26, 2007 and obtain a savings in total debt service requirement. Interest rates range from 2.0% to 5.0%, payable semiannually in June and December. The bonds mature on June 15, 2028 with principal payments due annually on June 15<sup>th</sup>. The bonds were issued at a premium of \$7,273,383, which is being amortized over the life of the bonds

Pension Obligation Bonds – On October 31, 2002, the District issued \$16,044,243 of limited tax pension obligation bonds to finance its portion of the unfunded actuarial liability (UAL) with the State of Oregon Public Employees Retirement System (PERS) as of December 31, 2000. On February 19, 2004, the District issued an additional \$13,715,000 of limited tax pension obligation bonds to finance its portion of the UAL with PERS as of December 31, 2001. On August 11, 2011, the District issued \$1,120,000 of limited tax pension refunding obligation bonds to advance refund the 2021 maturity of the Series 2002 pension bond.

Long-term liability activity for the year ended June 30, 2020 is as follows:

| Issue Date     | Issue<br>Amount        | Outstanding<br>July 1, 2019 | Additions | <br>Reductions  | <br>Outstanding<br>June 30, 2020 | <br>Due Within<br>One Year | Interest<br>Rates |
|----------------|------------------------|-----------------------------|-----------|-----------------|----------------------------------|----------------------------|-------------------|
| General Obliga | tion Bonds:            |                             |           |                 |                                  |                            |                   |
| 02/27/13       | \$ 42,075,000          | \$ 36,390,000               | \$ -      | \$<br>2,735,000 | \$<br>33,655,000                 | \$<br>3,010,000            | 3.0% - 5.0%       |

#### 5. Long-Term Debt (Continued)

Future Maturities are as follows:

| Fiscal<br>Year | Principal         | Interest |            |
|----------------|-------------------|----------|------------|
|                |                   |          |            |
| 2020-2021      | \$<br>6,895,000   | \$       | 6,107,710  |
| 2021-2022      | 7,635,000         |          | 5,788,214  |
| 2022-2023      | 8,485,000         |          | 5,402,022  |
| 2023-2024      | 9,395,000         |          | 4,965,200  |
| 2024-2025      | 10,345,000        |          | 4,520,483  |
| 2025-2030      | 43,725,000        |          | 15,104,991 |
| 2030-2035      | 29,515,000        |          | 8,088,400  |
| 2035-2038      | 21,835,001        |          | 1,718,400  |
|                |                   |          |            |
| Total          | \$<br>137,830,001 | \$       | 51,695,420 |

Payments on the general obligation bonds are made by the Debt Service Fund from property taxes and earnings on investments. Payments on pension bonds are made by the PERS Debt Service Fund from revenue charges to other funds.

#### 6. Interfund Receivables/Payables & Transfers

The composition of due to/due from balances as of June 30, 2020 is as follows:

|                        | Due from | n other funds | Due | to other funds |
|------------------------|----------|---------------|-----|----------------|
| Major Government Funds |          |               |     |                |
| General Fund           | \$       | 483,446       | \$  | =              |
| Grants Fund            |          | =             |     | 483,446        |
|                        | \$       | 483,446       | \$  | 483,446        |

The District maintains a cash pool that is available for use by all funds. Each fund type's portion of this pool is reported as either Cash and Investments or Due to/from Other Funds. Interfund receivables and payables (Due to / Due from Other Funds) arise during normal processing of receipts and disbursements for all funds through a single checking account and do not represent interfund loans. There was \$483,446 due from the Grants Fund to cover grant expenditures pending reimbursement.

The interfund transfers during the year ended June 30, 2020 are as follows:

|                        | Ira | inster in  | I ransfer out |  |
|------------------------|-----|------------|---------------|--|
| Major Government Funds |     |            |               |  |
| General Fund           | \$  | - \$       | 100,000       |  |
| Grants Fund            |     | 100,000    | -             |  |
|                        | \$  | 100,000 \$ | 100,000       |  |

A transfer of \$100,000 from General Fund to Grants Fund is made to support the elementary after school program. Additionally, within the General Fund, transfers were made to budgetary reserve funds for school textbooks, technology and to maintain the District's capital assets.

# 7. Pension Plan

#### Plan Description

The District participates in the Oregon Public Employees Retirement System (OPERS), a cost-sharing multiple-employer defined benefit plan. OPERS provides retirement, disability, and death benefits to plan members and their beneficiaries.

All benefits of OPERS are established by the Oregon Legislature pursuant to Oregon Revised Statutes (ORS) Chapters 238 and 238A. The plan complies with Internal Revenue Service rules prescribed in 401(a). The Oregon Legislature has delegated the authority to the Public Employees Retirement Board (PERB) to administer and manage the system. OPERS issues a publicly available financial report that can be obtained at: <a href="https://www.oregon.gov/pers/Documents/Financials/CAFR/2020-CAFR.pdf">https://www.oregon.gov/pers/Documents/Financials/CAFR/2020-CAFR.pdf</a>. OPERS prepares their financial statements in accordance with GASB statements and generally accepted accounting principles. The accrual basis of accounting is used for all funds. Contributions are recognized when due, pursuant to legal (or statutory) requirements. Benefits are recognized in the month they are earned and withdrawals are recognized in the month they are due and payable. Investments are recognized at fair value, the amount at which financial instruments could be exchanged in a current transaction between willing parties other than in a forced or liquidation sale.

There are currently two programs within OPERS, with eligibility determined by the date of employment. Those employed prior to August 29, 2003 are OPERS Program members, and benefits are provided based on whether a member qualifies for Tier One or Tier Two described below. Those employed on or after August 29, 2003 are Oregon Public Service Retirement Plan (OPSRP) Program members. OPERS is a hybrid retirement plan with two components: 1) the Pension Program (defined benefit; established and maintained as a tax-qualified governmental defined benefit plan), and 2) the Individual Account Program (IAP) (defined contribution; established and maintained as a tax-qualified governmental defined contribution plan).

The 1995 Legislature created a second tier of benefits for those who became OPERS Program members after 1995 but before August 29, 2003. The second tier does not have the Tier One assumed earnings rate guarantee.

Beginning January 1, 2004, all employees who were active members of OPERS became members of the OPSRP IAP Program. OPERS plan member contributions (the employee contribution, whether made by the employee or "picked-up" by the employer) go into the IAP portion of OPSRP. OPERS plan members retain their existing OPERS accounts; however, member contributions after January 1, 2004 are deposited in the member's IAP, not into the member's OPERS account.

# a. Tier One/Tier Two Retirement Benefit Plan (Chapter 238).

#### **Pension Benefits**

The PERS retirement allowance is payable monthly for life. It may be selected from thirteen retirement benefit options. These options include survivorship benefits and lump-sum refunds. The basic benefit is based on years of service and final average salary. A percentage (1.67 percent for general service employees) is multiplied by the number of years of service and the final average salary. Benefits may also be calculated under either a formula plus annuity (for members who were contributing before August 21, 1981) or a money match computation if a greater benefit results.

# 7. <u>Pension Plan (Continued)</u>

A member is considered vested and will be eligible at minimum retirement age for a service retirement allowance if he or she has had a contribution in each of five calendar years or has reached at least 50 years of age before ceasing employment with a participating employer. General service employees may retire after reaching age 55. Tier One general service employee benefits are reduced if retirement occurs prior to age 58 with fewer than 30 years of service. Tier Two members are eligible for full benefits at age 60.

The ORS Chapter 238 Defined Benefit Pension Plan is closed to new members hired on or after August 29, 2003.

#### Death Benefits

Upon the death of a non-retired member, the beneficiary receives a lump-sum refund of the member's account balance (accumulated contributions and interest). In addition, the beneficiary will receive a lump-sum payment from employer funds equal to the account balance, provided one or more of the following conditions are met:

- the member was employed by a PERS employer at the time of death,
- the member died within 120 days after termination of PERS-covered employment,
- the member died as a result of injury sustained while employed in a PERS-covered job, or
- the member was on an official leave of absence from a PERS-covered job at the time of death.

# **Disability Benefits**

A member with ten or more years of creditable service who becomes disabled from other than duty-connected causes may receive a non-duty disability benefit. A disability resulting from a job-incurred injury or illness qualifies a member disability benefits regardless of the length of PERS-covered service. Upon qualifying for either a non-duty or duty disability, service time is computed to age 58 when determining the monthly benefit.

# Benefit Changes after Retirement

Members may choose to continue participation in a variable equities investment account after retiring and may experience annual benefit fluctuations due to changes in the market value of equity investments.

Under ORS 238.360 monthly benefits are adjusted annually through cost-of-living changes. Under current law, the cap on the COLA in fiscal year 2018 and beyond will vary based on 1.25 percent on the first \$60,000 of annual benefit and 0.15 percent on annual benefits above \$60,000.

#### b. OPSRP Pension Program (Chapter 238A)

#### Pension Benefits.

The OPSRP Pension Program (ORS Chapter 238A) provides benefits to members hired on or after August 29, 2003. This portion of OPSRP provides a life pension funded by employer contributions. For general service employees benefits are calculated with the following formula: 1.5 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for general service members is age 65, or age 58 with 30 years of retirement credit.

#### 7. Pension Plan (Continued)

A member of the OPSRP Pension Program becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, and, if the pension program is terminated, the date on which termination becomes effective.

### **Death Benefits**

Upon the death of a non-retired member, the spouse or other person who is constitutionally required to be treated in the same manner as the spouse, receives for life 50 percent of the pension that would otherwise have been paid to the deceased member.

#### **Disability Benefits**

A member who has accrued ten or more years of retirement credits before the member becomes disabled or a member who becomes disabled due to job-related injury shall receive a disability benefit of 45 percent of the member's salary determined as of the last full month of employment before the disability occurred.

# Benefit Changes after Retirement

Under ORS 238A.210 monthly benefits are adjusted annually through cost-of-living changes. Under current law, the cap on the COLA in fiscal year 2018 and beyond will vary based on 1.25 percent on the first \$60,000 of annual benefit and 0.15 percent on annual benefits above \$60,000.

#### Contributions

PERS funding policy provides for monthly employer contributions at actuarially determined rates. These contributions, expressed as a percentage of covered payroll, are intended to accumulate sufficient assets to pay benefits when due. This funding policy applies to the PERS Defined Benefit Plan and the Other Postemployment Benefit Plans.

Employer contribution rates during the period were based on the December 31, 2017 actuarial valuation. The rates based on a percentage of payroll, first became effective July 1, 2019. The District made lump sum payments to establish side accounts in 2002 and 2004, which reduces the District rates below the standard School District Pool rates. The District's contractually required contribution rate for the year ended June 30, 2020 was 23.07% of eligible payroll for Tier 1/Tier 2 members and 17.62% of eligible payroll for OPSRP members. Employer contributions for the year ended June 30, 2020 were \$7,878,582, excluding amounts to fund employer specific liabilities. \$2,699,733 was charged for the year ended June 30, 2020 as PERS benefit expenditures to be used for bond payments as they become due. In addition, \$1,736,592 in employee contributions were paid by the district for the year ended June 30, 2020.

<u>Pension Liablilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources related to Pensions</u>

At June 30, 2020, the District reported a liability of \$67,078,729 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2017 rolled forward to June 30, 2019. The District's proportion of the net pension liability was based on the District's projected long-term contribution effort to the Plan with the total projected long-term contribution effort of all employers, actuarially determined. At June 30, 2019 the District's proportion was .39% which was .01% less than its proportion measured as of June 30, 2018.

For the year ended June 30, 2020, the District recognized a pension expense of \$16.35 million. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|  | <br>rred Ouflows<br>Resources | <br>erred Inflows<br>Resources |
|--|-------------------------------|--------------------------------|
| Differences between expected and actual experience   | \$<br>3,699,194               | -                              |
| Changes in assumptions   | 9,099,995                     | -                              |
| Net difference between projected and actual earnings on investments                                    | -                             | \$<br>1,901,614                |
| Changes in proportionate share   | 912,643                       | 2,058,132                      |
| Differences between employer contributions and employer's proportionate share of system contributions` | -                             | 1,065,593                      |
| District contributions subsequent to the measurement date  | <br>7,270,168                 | <br>                           |
| Total  | \$<br>20,982,000              | \$<br>5,025,339                |

District contributions subsequent to the measurement date of \$7,270,168 reported as deferred outflows of resources related to pensions will be recognized as a reduction of the net pension liability in the year ended June 30, 2021. Other amounts reported by the District as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in subsequent years as follows:

|               | Pension         |
|---------------|-----------------|
|               | Expense         |
| June 30, 2021 | \$<br>5,668,742 |
| June 30, 2022 | 42,433          |
| June 30, 2023 | 1,684,198       |
| June 30, 2024 | 1,253,088       |
| June 30, 2025 | 38,032          |
|               |                 |
|               | \$<br>8,686,493 |

#### Actuarial Methods and Assumptions:

All assumptions, methods and plan provisions used in these calculations are described in the Oregon PERS system-wide GASB 68 reporting summary dated March 4, 2020. Oregon PERS produces an independently audited CAFR which can be found at: <a href="https://www.oregon.gov/pers/EMP/Pages/Actuarial-Financial-Information.aspx">https://www.oregon.gov/pers/EMP/Pages/Actuarial-Financial-Information.aspx</a>.

### **Actuarial Valuations**

The employer contribution rates effective July 1, 2019 through June 30, 2021, were set using the projected unit credit actuarial cost method.

For the Tier One/Tier Two component of the PERS Defined Benefit Plan, this method produced an employer contribution rate consisting of (1) an amount for normal cost (the estimated amount necessary to finance benefits earned by the employees during the current service year), (2) an amount for the amortization of unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial accrued liabilities being amortized over 20 years.

For the OPSRP Pension Program component of the PERS Defined Benefit Plan, this method produced an employer contribution rate consisting of (a) an amount for normal cost (the estimated amount necessary to finance benefits earned by the employees during the current service year), (b) an amount for the amortization of unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial accrued liabilities being amortized over 16 years.

#### **Actuarial Assumptions**

The total pension liability in the December 31, 2017 actuarial valuation was determined using the following actuarial assumptions applied to all periods included in the measurement:

| Valuation Date                    | December 31, 2017  |
|-----------------------------------|--|
| Measurement Date                  | June 30, 2019  |
| Experience Study Report           | 2016, published July 26, 2017  |
| Actuarial cost method             | Entry Age Normal   |
| Actuarial assumptions:            |  |
| Inflation rate                    | 2.50 percent   |
| Investment rate of return         | 7.20 percent   |
| Discount rate                     | 7.20 percent   |
| Projected salary increases        | 3.50 percent   |
| Cost of living adjustments (COLA) | Blend of 2% COLA and graded COLA (1.25%/0.15% in accordance with <i>Moro</i> decision; blend based on service. |

| Mortality | Healthy retirees and beneficiaries: RP-2014 Healthy annuitant, sex-distinct, generational with Unisex, Social Security Data Scale, with collar adjustments and set-backs as described in the valuation. |
|-----------|---|
|           | <b>Active members</b> : RP-2014 employee, sex-distinct, generational with Unisex, Social Security Data Scale, with collar adjustments and setbacks as described in the valuation.                       |
|           | <b>Disabled retirees</b> : RP-2014 Disabled retirees, sex-distinct, generational with Unisex, Social Security Data Scale.   |

(Source: June 30, 2019 Oregon PERS CAFR; Page 71)

Actuarial valuations of an ongoing plan involve estimates of the value of projected benefits and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years. The methods and assumptions shown above are based on the 2016 Experience Study which reviewed experience for the four-year period ending on December 31, 2016.

#### Discount Rate

The discount rate used to measure the total pension liability was 7.20 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Defined Benefit Pension Plan was applied to all periods of projected benefit payments to determine the total pension liability.

#### Assumed Asset Allocation

| Assat Class/Strategy  | OIC    |
|-----------------------|--------|
| Asset Class/Strategy  | Target |
| Cash                  | 0.0    |

#### Long-Term Expected Rate of Return

To develop an analytical basis for the selection of the long-term expected rate of return assumption, in July 2017 the PERS Board reviewed long-term assumptions developed by both Milliman's capital market assumptions team and the Oregon Investment Council's (OIC) investment advisors. Each asset class assumption is based on a consistent set of underlying assumptions, and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model. For more information on the Plan's portfolio, assumed asset allocation, and the long-term expected rate of return for each major asset class, calculated using both arithmetic and geometric means, see PERS' audited financial statements at: https://www.oregon.gov/pers/Documents/Financials/CAFR/2019-CAFR.pdf

TABLE 31

| Long-Term Expected Rate of Return   Asset Class | Target<br>Allocation* | Annual<br>Arithmetic<br>Return <sup>2</sup> | Compound Annual<br>(Geometric)<br>Return | Standard<br>Deviation |
|---|-----------------------|---|--|-----------------------|
| Core Fixed Income                               | 8.00 %                | 3.59 %                                      | 3.49 %                                   | 4.55 %                |

# Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in the separately issued OPERS financial report. The effect of OPERS on the District's net position has been determined on the same basis used by OPERS.

# Changes in Plan Provisions Subsequent to Measurement Date

Changes in actuarial methods, allocation, and assumption from December 31, 2015 to the December 31, 2017 actuarial valuation are listed in the Actuarial Valuation Report pages 103 and 104.

# 8. Other Postemployment Benefits (OPEB)

The District offers a postemployment health insurance subsidy and contributes to a retirement health insurance account through Oregon Public Employees Retirement System. The breakdown of the net OPEB liability, asset, deferred outflows of resources and deferred inflows of resources related to OPEB are:

| _                                   |    | Postemployment<br>Health Insurance<br>Subsidy |    | Postemployment<br>Health Insurance<br>Account |    | Net       |  |
|-------------------------------------|----|---|----|---|----|-----------|--|
| Total OPEB Liability                | \$ | 6,463,125                                     | \$ | -   | \$ | 6,463,125 |  |

| OPEB Deferred Outflows of Resources |    | 700,273                                       |    | 46,363  |    | 746,636   |  |
| OPEB Deferred Inflows of Resources  |    | 1,517,274                                     |    | 137,774                                       |    | 1,655,048 |  |

# A. Postemployment Health Insurance Subsidy (PHIS)

#### Plan Description

The District maintains a single employer early retirement supplemental program for its employees. All postemployment benefits are based on contractual agreements with employee groups. Eligibility for these benefits is based on years of service and/or minimum age requirements. These contractual agreements do not include any specific contribution or funding requirements. The district does not issue a stand-alone report for this plan.

#### 8. Postemployment Health Insurance Subsidy (PHIS) (Continued)

The District sponsors an early retirement program with two main components, as follows:

- 1) District paid medical premiums for certain retirees who were hired or retired before certain threshold dates. The District is in the process of phasing out this plan and has adopted benefit reduction trigger dates for each class of employee. Administrative and confidential employees hired prior to July 1, 2006 are eligible for District-paid medical insurance until they are eligible for Medicare, limited to a maximum of 72 months. This explicit benefit is required to be valued under GASB 75. At June 30, 2020 there were 8 active participants who are potentially eligible for this benefit in the future.
- 2) Per Oregon Revised Statutes (ORS) 243.303, the District provides health insurance coverage on a self-pay basis for retirees and eligible dependents until they are Medicare eligible. Healthcare premiums rates must be based on all plan members, both active employees and retirees. There is an implicit subsidy with respect to retired employees because the medical premium rates charged for coverage typically are less than actual expected retiree claim costs. This is due to medical premium rates being determined by blending both active employee and retiree experience. This additional cost is called the "implicit subsidy", and is required to be valued under GASB 75. There are 792 active and 49 retired members in the plan.

# **Funding Policy**

There is no obligation on the part of the District to fund these benefits in advance. The benefit from this program is paid by retired employees on a self-pay basis and the required contributions is based on projected pay-as-you go financing requirements.

# OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The District's total OPEB liability of \$6,463,125 was measured as of July 1, 2018 and was determined by an actuarial valuation as of that date.

For the year ended June 30, 2020, the District recognized OPEB expense of \$380,531. At June 30, 2020 the District reported deferred outflows of resources and inflows of resources related to OPEB from the following sources:

|  | Deferred Outflows of Resources |         | Deferred Inflows of Resources |           |
|--|--------------------------------|---------|-------------------------------|-----------|
| Differences between expected and acutal experience | \$                             | 204,341 | \$                            |           |
| Changes of assumptions or other input              |                                | 495,932 |                               | 1,517,274 |
| Total  | \$                             | 700,273 | \$                            | 1,517,274 |

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

|               | Expense         |
|---------------|-----------------|
| June 30, 2021 | \$<br>(179,932) |
| June 30, 2022 | (179,932)       |
| June 30, 2023 | (179,932)       |
| June 30, 2024 | (179,932)       |
| June 30, 2025 | (179,930)       |
| Thereafter    | 82 657          |

# 8. Postemployment Health Insurance Subsidy (PHIS) (Continued)

# **Actuarial Assumptions**

The total OPEB liability in the July 1, 2018 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

| Valuation date              | July 1, 2018  |
|-----------------------------|---|
| Measurement date            | June 30, 2019 and June 30, 2020   |
| Actuarial cost method       | Entry Age Normal, level percent of salary.  |
| Actuarial assumptions:      |   |
| Discount rate               | 2.25% per year, based on all years discounted at municipal bond rate.   |
| Inflation rate              | 2.50% per year  |
| Salary increases            | 3.50% per year  |
| Healthcare cost trend rates | 5.0% for 2019-20, 5.5% for 2020-21, increasing to 6.0% for 2028-29, and decreasing to an ultimate rate of 5.00% for 2038 and beyond.  |
| Mortality rates             | Basic table: RP 2014, Employee/Healthy Annuitant, sex distinct, generational Improvement scale: Unisex Social Security Data Scale (60 year average) Active employee/retiree adjustment: White collar adjustment, set back 12 months Beneficiary adjustments: Blended 50% blue collar/50% white collar, set back 12 months for males, no set back for females. |
| Turnover rates              | As developed for the valuation of benefits under Oregon PERS and vary by years of service.  |
| Disability rates            | As developed for the valuation of benefits under Oregon PERS and vary by employee age.  |
| Retirement rates            | Calculated based on age and years of service. 100% of future retirees eligible for District-paid medical benefits are assumed to elect medical coverage. 85% of future retirees not eligible for District-paid medical benefits and currently enrolled in a medical plan are assumed to elect medical coverage.   |

|                      |       |           |         |            |    |           |  |
| Total OPEB Liability | \$    | 5,658,402 | \$      | 6,463,125  | \$ | 7,430,464 |  |

#### B. Retirement Health Insurance Account (RHIA)

# Plan description

As a member of Oregon Public Employees Retirement System (OPERS), the District contributes to the Retirement Health Insurance Account (RHIA) for each of its eligible employees. RHIA is a cost-sharing multiple-employer defined benefit other postemployment benefit plan administered by OPERS. Oregon Revised Statute (ORS) 238.420 established this trust fund. Authority to establish and amend the benefit provisions of RHIA resides with the Oregon Legislature. The plan is closed to new entrants hired on or after August 29, 2003. OPERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Oregon Public Employees Retirement System, P.O. Box 23700, Tigard, OR 97281-3700.

# 8. Other Post Employment Benefits (Continued)

#### Benefits

RHIA pays a \$60 monthly contribution toward the cost of Medicare companion health insurance premiums of eligible retirees.

#### Contributions

Because RHIA was created by enabling legislation (ORS238.420), contribution requirements of the plan members and the participating employers were established and may be amended only by the Oregon Legislature. ORS require that an amount equal to \$60 or the total monthly cost of Medicare companion health insurance premiums coverage, whichever is less, shall be paid from the Retirement Health Insurance Account established by the employer, and any monthly cost in excess of \$60 shall be paid by the eligible retired member in the manner provided in ORS 238.410. To be eligible to receive this monthly payment toward the premium cost the member must: (1) have eight years or more of qualifying service in PERS at the time of retirement or receive a disability allowance as if the member had eight years or more of credible service in PERS, (2) receive both Medicare Parts A and B coverage, and (3) enroll in a PERS-sponsored health plan. A surviving spouse or dependent of a deceased PERS retiree who was eligible to receive the subsidy is eligible to receive the subsidy if he or she (1) is receiving a retirement benefit or allowance from PERS or (2) was insured at the time the member died and the member retired before May 1, 1991.

Participating employers are contractually required to contribute to RHIA at a rate assessed each year by OPERS, currently 0.50% of Tier 1 and Tier 2 payroll and 0.43% of OPSRP of annual covered payroll. The OPERS Board of Trustees sets the employer contribution rate based on the annual required contribution (ARC) of the employers, an amount actuarially determined. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed thirty years. The District's contributions to RHIA for the years ended June 30, 2018, 2019, and 2020, were approximately \$161,593, \$172,087, and \$177,294 which equaled the required contributions each year.

# OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2020, the District reported an asset of \$690,504 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2017, rolled forward to the measurement date. The District's proportion of the net OPEB liability was based on the District's actual, legally required contributions made during the fiscal year being compared to the total actual contributions made in the fiscal year by all employers. The District's proportionate share as of the measurement date is .35734%, changed from .35853% for the prior measurement date.

For the year ended June 30, 2030, the District recognized OPEB income of \$92,344 related to the RHIA OPEB. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to the RHIA OPEB from the following sources:

|   | Deferred Outflows |        | Deferred Inflows |              |  |  |
|---|-------------------|--------|------------------|--------------|--|--|
|   | of Resources      |        |                  | of Resources |  |  |
| Differences between expected and acutal experience                  | \$                | _      | \$               | 91,057       |  |  |
| Changes in assumptions  |                   | -      |                  | 715          |  |  |
| Net difference between projected and actual earnings on investments |                   | -      |                  | 42,621       |  |  |
| Changes in proportionate share                                      |                   | 654    |                  | 3,381        |  |  |
| District contributions subsequent to the measurement date           |                   | 45,709 |                  | -            |  |  |
| Total   | \$                | 46,363 | \$               | 137,774      |  |  |

# 8. Other Post Employment Benefits (Continued)

The amount of contributions subsequent to the measurement date of \$45,709 will be included as a reduction of the net OPEB asset in the fiscal year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the RHIA OPEB will be recognized in OPEB (income) expense as follows:

|               | Expense        |
|---------------|----------------|
| June 30, 2021 | \$<br>(71,459) |
| June 30, 2022 | (62,197)       |
| June 30, 2023 | (7,854)        |
| June 30, 2024 | 4,390          |
| June 30, 2025 | -              |

#### Actuarial Methods and Assumptions

All assumptions, methods and plan provisions used in these calculations are described in the Oregon PERS Retirement Health Insurance Account Cost-Sharing Multiple-Employer Other Postemployment Benefit (OPEB) Plan Schedules of Employer Allocations and OPEB Amounts by Employer report as of and for the year ended June 30, 2019. The independently audited report was dated February 24, 2020 and can be found at: https://www.oregon.gov/pers/EMP/Pages/GASB.aspx.

| Valuation date                    | December 31, 2017  |

Disabled retirees: RP-2014 Disabled retirees, sex-distinct, generational with Unisex, Social Security Data Scale. |

# 8. Other Post Employment Benefits (Continued)

#### Discount Rate

The discount rate used to measure the total OPEB liability at June 30, 2019 was 7.20 percent. The projection of cash flows used to determine the discount rate assumed that contributions from contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the RHIA plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments for the RHIA plan was applied to all periods of projected benefit payments to determine the total OPEB liability.

#### Long-Term Expected Rate of Return

To develop an analytical basis for the selection of the long-term expected rate of return assumption, in July 2017 the PERS Board reviewed long-term assumptions developed by both Milliman's capital market assumptions team and the Oregon Investment Council's (OIC) investment advisors. Each asset class assumption is based on a consistent set of underlying assumptions and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forwardlooking capital market economic model. For more information on the Plan's portfolio, assumed asset allocation, and the long-term expected rate of return for each major asset class, calculated using both the and geometric **PERS** audited financial statements arithmetic means. see https://www.oregon.gov/pers/Documents/Financials/CAFR/2019-CAFR.pdf

#### Sensitivity Analysis

Sensitivity of the total OPEB liability to changes in the discount rate. The following presents the total OPEB liability of the District for the Retirement Health Insurance Account, as well as what the total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.20%) or 1-percentage-point higher (8.20%) than the current discount rate:

|                                       | 1%       |           | Current       |           | 1%       |           |  |
|---------------------------------------|----------|-----------|---------------|-----------|----------|-----------|--|
|                                       | Decrease |           | Discount Rate |           | Increase |           |  |
|                                       |          | (6.2%)    |               | (7.2%)    |          | (8.2%)    |  |
| District's net OPEB liability (asset) | \$       | (535,319) | \$            | (690,504) | \$       | (822,733) |  |

# Changes Subsequent to Measurement Date

A change subsequent to the June 30, 2019 Measurement Date is the passage of the Further Consolidated Appropriations Act (HR1865), which became law in December 2020. The Act repealed the "Cadillac tax" on high cost health plans and removed the Health Insurer Fee permanently beginning in 2021. Both of these legislated changes are expected to decrease future expected medical costs projected by our trend assumption. For Oregon PERS, this has no effect on RHIA, but would be expected to decrease future projected RHIPA benefits. An initial estimate is that the change to RHIPA Net OPEB Liability may be a reduction of \$1 million to \$2 million.

# 9. Tax Sheltered Annuity

The District offers its employees a tax deferred annuity program established pursuant to Section 403(b) of the Internal Revenue Code (the Code). Contributions are made through salary reductions from participating employee up to the amounts specified in the Code. No contributions are required from the District. As of June 30, 2020, 230 employees were participating in the plan.

# 10. Risk Management

The District is exposed to various risks of loss related to torts; theft of damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District carries commercial insurance for other risks of loss including excess liability, workers' compensation, boiler and machinery, public official bond and employee dishonesty and contractors' license bond coverage. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three years. The District's coverage in all areas remains consistent with prior years.

#### 11. Contingent Liabilities

The amounts of grant revenue reflected in the financial statements are subject to audit and adjustment by grantor agencies, principally the federal government. Any costs that are questioned or recommended to be disallowed which ultimately result in disallowed claims may become a liability of the District. The amount, if any, of costs which may be disallowed by the grantor cannot be determined at this time, although District management expects such amounts, if any, to be immaterial.

The District, in the regular course of business, is named as a defendant in various lawsuits. The likely outcome of these lawsuits is not presently determinable.

The District is dependent on the State of Oregon for a substantial portion of its operating funds. Due to funding uncertainties at the State level, future funding for school district may be reduced. The ultimate effect of this possible reduction in funding on the District's future operations is not yet determinable.

# 12. <u>Property Tax Abatements</u>

The District's property tax revenues were reduced by \$61,629 under historic property and housing for low income rental agreements by other municipalities within the District's boundaries.

#### 13. COVID-19

The COVID-19 outbreak worldwide has resulted in government mandated closures that have caused disruption in the District's ability to deliver-in-person education. The outbreak has affected local and global economies. The extent and duration of the impact of this outbreak on the operations of the District is unknown at this time.

#### McMINNVILLE SCHOOL DISTRICT NO. 40 NOTES TO REQUIRED SUPPLEMENTARY INFORMATION Year Ended June 30, 2020

#### 1. Other Postemployment Benefits – PHIS and RHIA

These schedules of changes in total other postemployment benefits and related ratios will eventually present multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

#### 2. Employee Retirement Pension Benefits.

#### Changes in Plan Provisions

A summary of key changes in plan provisions are described in the Oregon Public Employees Retirement System's GASB information found at:

https://www.oregon.gov/pers/EMP/Pages/GASB.aspx

#### Changes in Assumptions

A summary of key changes implemented since the December 31, 2017 valuation are described in the Oregon Public Retirement System's GASB 68 disclosure information which can be found at: https://www.oregon.gov/pers/EMP/Pages/GASB.aspx

A summary of key changes in plan provisions and assumptions implemented since the December 31, 2017 valuation are described in the Oregon Public Employees Retirement System's Actuarial Presentations and Reports Information. Additional details and a comprehensive list of changes in methods and assumptions can be found in the 2018 Experience Study for the System, which was published on July 24, 2019. These reports can be found at:

https://www.oregon.gov/pers/Pages/Financials/Actuarial-Presentations-and-Reports.aspx

#### 3. General Fund

The General Fund Schedule of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual are based on legally adopted budgets with actual data on a budgetary basis. Since accounting principles applied for purposes of developing data on a budgetary basis differ significantly from those used to present financial statements in conformity with generally accepted accounting principles (GAAP), a reconciliation of these differences is provided at the bottom of this schedule.

The District has three reserve funds that are separate funds for budget appropriation but are included in the government financial statements under General Fund. Transfers from the General Fund (budgetary basis) are the primary source of inflows for these two funds.

#### 4. Budget

A budget is prepared and legally adopted for the General Fund, Asset Reserve Fund, Textbooks and Technology Reserve, Insurance Reserve Fund and Grants Fund on the modified accrual basis of accounting. The budgetary basis of accounting is the same as accounting principles generally accepted in the United States of America basis for the governmental fund types, proprietary fund type and private purpose trust fund type. The resolution authorizing appropriations for each fund sets the level by which expenditures cannot legally exceed appropriations.

#### McMINNVILLE SCHOOL DISTRICT NO. 40 NOTES TO REQUIRED SUPPLEMENTARY INFORMATION Year Ended June 30, 2020

#### 4. <u>Budget (continued)</u>

Appropriations are established at the major function level (instruction, support services, enterprise and community services, facilities acquisition and construction, debt service, operating contingency and transfers) for each fund. The detail budget document, however, is required to contain more specific, detailed information for the aforementioned expenditure categories. Unexpected additional resources may be added to the budget through the use of supplemental budget and appropriation resolution.

Supplemental budgets less than 10% of fund's budget may be adopted by the Board at a regular meeting. A supplemental budget greater than 10% of a fund's original budget requires hearing before the public, publication in newspapers and approval by the Board. Original and supplemental budgets may be modified by the use of appropriation transfers between the levels of control (major function levels) with Board approval. Appropriations lapse at the end of each fiscal year.

### **OTHER MAJOR GOVERNMENTAL FUNDS**

The District's Other Major Governmental Funds are as follows:

Debt Service Fund – This fund is used for the accumulation of resources and payment of general obligation principal and interest. Primary resources in these funds are property taxes, and earnings on investments.

Capital Projects Fund – This fund accounts for activities related to the acquisition, construction, and equipping of facilities. The principle revenue sources are proceeds from the sale of bonds, state capital grants, and interest earnings.

#### NONMAJOR GOVERNMENTAL FUNDS

These funds account for revenues and expenditures restricted for specific educational projects, capital improvements funded by construction excise taxes, debt service on pension obligation bonds and remaining capital project funds.

School Nutrition Fund - accounts for revenue and expenditures associated with providing a student food service program. Principal sources of revenue are from lunch sales and subsidies under the National School Lunch Program received through the State of Oregon.

Student Body Fund - This fund is used to account for fund-raising resources held by the District in a fiduciary capacity for use by students

Construction Excise Tax Fund – accounts for revenue and expenditures for facilities, acquisitions, improvements, and construction. The principal sources of revenue are fees charged on new construction permits.

PERS Debt Service Fund - This fund is used for the accumulation of resources and payment of pension obligation bond principal and interest. Primary resources in this fund are services provided other funds and earnings on investments.

Note: Property tax rates listed are per \$1,000 assessed value.

(a) Overlapping rates are those of local and county governments that apply to property owners within the McMinnville School District. Not all overlapping rates apply to all McMinnville School District property owners (example: the rates for special districts apply only to property located within the georgraphic boundaries of that special district).

(b) Other taxing districts include Yamhill County Extension Service, Yamhill County Soil & Water District and Chemeketa Library.

<sup>(1)</sup> Weighted Average Daily Membership is the enrollment figure used to allocate revenues appropriated by the State to school districts. It is the average daily membership increased for a variety of weighting factors such as students with disabilities, english language learners and poverty.

Average daily membership during the school year. Kindergarten was counted as .50 until 2015-16, the first year of full day kindergarten.

<sup>(3)</sup> Includes classroom, music, physical education, special education teachers, librarians and counselors.

District began offering full day kindergarten in 2015-16. -0.0040

Average daily membership with kindergarten = 1.0

General fund budgetary basis schedule

District began serving dinner meals to students in after school programs in 2015 District participated in the Community Eligibility Provision at all schools from 2014-2018. In 2018-19, only elementary schools participated.

Note: For fiscal year 2020 there was a reduction in meals served and miles due to the closure of schools in March 2020 because of the pandemic. Meals were distributed at schools and by a limited number of bus deliveries during distance learning.

# AUDIT COMMENTS AND DISCLOSURES REQUIRED BY STATE REGULATIONS

# MCMINNVILLE SCHOOL DISTRICT NO. 40 INDEPENDENT AUDITORS' REPORT REQUIRED BY OREGON STATE REGULATIONS

We have audited the basic financial statements of the McMinnville School District No. 40 (District) as of and for the year ended June 30, 2020 and have issued our report thereon dated December 18, 2020. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, issued by the Comptroller General of the United States.

# <u>Compliance</u>

As part of obtaining reasonable assurance about whether District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the determination of financial statements amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures which included, but were not limited to the following:

- Deposit of public funds with financial institutions (ORS Chapter 295).
- Indebtedness limitations, restrictions and repayment.
- Budgets legally required (ORS Chapter 294).
- Insurance and fidelity bonds in force or required by law.
- Programs funded from outside sources.
- Authorized investment of surplus funds (ORS Chapter 294).
- Public contracts and purchasing (ORS Chapters 279A, 279B, 279C).
- State school fund factors and calculation

In connection with our testing nothing came to our attention that caused us to believe the District was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations.

#### OAR 162-10-0230 Internal Control

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

This report is intended solely for the information and use of the board of directors and management of the District and the Oregon Secretary of State and is not intended to be and should not be used by anyone other than these parties.

# **GRANT COMPLIANCE SECTION**

To the School Board McMinnville School District No. 40 Yamhill County, Oregon

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF THE FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of McMinnville School District No. 40 (District), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 18, 2020.

### Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express and opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

119

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

# Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

To the School Board McMinnville School District No. 40 Yamhill County, Oregon

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY UNIFORM GUIDANCE

### Report on Compliance for Each Major Federal Program

We have audited McMinnville School District No. 40's (District's) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2020. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

# Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

# Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

# Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

### **Report on Internal Control over Compliance**

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

# 1. <u>Basis of Presentation</u>

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of McMinnville School District No. 40 (District) programs of the federal government for the year ended June 30, 2020. The information in this Schedule is presented in accordance with the requirements of title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the District.

# 2. <u>Summary of Summary of Significant Accounting Policies</u>

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance wherein certain types of expenditures are not allowable or are limited as to reimbursement.

#### 3. Indirect Cost Rate

The District has elected not to use the 10% de minimis indirect cost rate as allowed under the Uniform Guidance due to the fact that the District has a negotiated indirect cost rate with Oregon Department of Education, and thus is not allowed to use the de minimus rate.

#### 4. Federal Financial Assistance

Pursuant to Uniform Guidance, federal financial assistance is defined as assistance provided by a federal agency, either directly or indirectly, in the form of grants, contracts, cooperative agreements, loans, loan guarantees, property, interest subsidies, insurance or direct appropriations. Accordingly, non-monetary federal assistance, including federal surplus property, is included in federal financial assistance and, therefore, is reported on the Schedule, if applicable. Federal financial assistance does not include direct federal cash assistance to individuals. Solicited contracts between the state and federal government for which the federal government procures tangible goods or services are not considered to be federal financial assistance.

# 5. <u>Major Programs</u>

Uniform Guidance establishes criteria to be used in defining major federal financial assistance programs. Major programs for the District are those programs selected for testing by the auditor using a risk-assessment model, as well as certain minimum expenditure requirements, as outlined in Uniform Guidance. Programs with similar requirements may be grouped into a cluster for testing purposes.

# 6. Transferability

As allowed by federal regulations, the District elected to transfer program funds. The District expended \$107,486 from its Title IV – Student Support and Academic and Enrichment grant (84.424) on allowed activities of Title 1, Part A grants to Local Education Agencies (84.010). This amount is reflected in the expenditures of Title IV – Student Support and Academic and Enrichment grant (84.424).
