

FIFTH GRADE

Your child is already making strides towards high school graduation!

This guide will help you see what benchmarks your student is striving for to reach graduation.

WHAT IS MY CHILD LEARNING?

State standards describe what Oregon students should know and be able to do by the end of the year.

LEARNING TO READ AND WRITE

Characteristics of fifth grade readers:

- Uses combined knowledge of all letter-sound correspondences, syllabication patterns and understand prefixes and suffixes to accurately read unfamiliar multisyllabic words in context and out of context
- Uses context to confirm or self correct word recognition and understanding, rereading as necessary
- Determines two or more main ideas in a text or theme of a story using key details
- Using specific details, compares and contrasts two or more characters, settings or events
- Integrates information from several texts on the same topic in order to write or speak about a subject knowledgeably

MATH FOUNDATIONS

Characteristics of fifth grade mathematics:

- Writes and interprets numerical expressions using symbols
- Understands place value relationships through thousandths
- Performs operations with multi-digit whole numbers to decimals in the hundredths
- Adds, subtracts, multiplies and divides fractions and/or whole numbers
- Converts measurements with a given system to solve multistep problems
- Understands concepts of volume and relates volume to multiplication and addition
- Graphs points on the coordinate plane to solve real-world and mathematical problems
- Classifies two-dimensional figures into categories based on their properties

WHAT DOES IT TAKE TO GRADUATE?

It is not too early to start thinking about high school graduation right now! It is important to set goals and to stay on track!

Now is the time that students establish foundational skills and knowledge that they will continue to build upon year after year.

HOW IS MY CHILD DOING?

Staying engaged in your child's education is critical.

For many students, having their families be active members in their education can help keep them on track to graduate.

These are a few ways parents or guardians can stay involved knowing how their child is doing in their classes and help support their child receive the support needed to succeed

PROGRESS REPORTS

Parents of elementary students receive 4 progress reports (report cards) each year. McMinnville elementary schools use a proficiency grading system which means grades reflect the student's progress towards mastering a standard in a subject or in an area of mindsets and behaviors related to learning.

Grades are reported on a scale of one to four. A score of 3 means the student meets grade level standards, or is proficient in that particular area.

TALK WITH YOUR CHILD'S TEACHER

A conversation with the teacher is a great way to find out about student progress. Email or the ParentSquare app is the fastest way to get in touch with teachers. Teachers are also available for phone conversations after school.

Open House and Conferences – Please take advantage of these times throughout the year to meet with your child's teacher and have your child share with you what they are working on.

ONGOING ASSESSMENTS

Your child's teacher is continually evaluating your child's progress towards standards. In first grade, this can be written work as well as reading aloud and students answering questions verbally.

HOW CAN I HELP AT HOME?

As a parent or guardian, you are the most influential person in your child's future success.

There are many things you can do to help set your child up for success in school

TIPS TO PREPARE YOUR CHILD FOR GRADUATION

- Demonstrate a positive attitude about school. Your child will model your attitude.
- Know about the academic concepts your child is learning.
- Have a comfortable place set up for schoolwork and minimize distractions
- Make sure you have the supplies you need. Contact your school for support if needed.
- Read nonfiction books with your child, and talk about what's happening in the books.
- Encourage and practice writing at home.
- Talk with your child about different careers people have, and what skills are needed.
- Ask your child to solve simple math problems of everyday life.
- Help your child have regular attendance and actively participate in class.
- Check your ParentSquare app regularly and have open communication with your child's school.
